Experience

IoT internship (Systel Motorola)

6/2022 -7/2022

- Assisted in the development of IoT solutions, focusing on device connectivity and data transmission.
- Gained hands-on experience with sensors, microcontrollers, and communication protocols.

Projects

- Developed a React-based movie search app using **React, JavaScript, HTML, and CSS**.
- Integrated the **TMDB API** to fetch and display movie data including posters, ratings and release dates.
- Utilized **Tailwind CSS** for responsive and modern UI design.

Asteroid game

7/2025

Demo: <https://asteroids-game-five.vercel.app/> | Repo: <https://github.com/Teki-1/asteroids-game>

- Developed a browser-based arcade game using **JavaScript, HTML Canvas, and CSS**.
- Implemented player controls for movement and shooting mechanics.
- Developed collision detection for asteroids, projectiles, and the player ship.

Time tracking dashboard

5/2025

Demo: <https://time-tracking-dashboard-nine-xi.vercel.app/> | Repo: <https://github.com/Teki-1/time-tracking-dashboard>

- Developed a responsive dashboard with **React, JavaScript, HTML, and CSS** to track user activity across daily, weekly and monthly timeframes.

- Implemented interactive data visualization and filtering.

Product list with shopping cart

4/2025

Demo: <https://product-list-with-cart-main-lime.vercel.app/> | Repo: <https://github.com/Teki-1/product-list-with-cart-main>

- Developed a React-based product catalog with real-time shopping cart functionality using **HTML, CSS, and JavaScript**.
- Implemented **State management** to dynamically update item counts, and cart total rendering.

Browser extension manager

4/2025

Demo: <https://browser-extensions-manager-ui-main-beta.vercel.app/> | Repo: <https://github.com/Teki-1/browser-extensions-manager-ui-main>

- Developed dynamic management interface using **HTML, CSS, and JavaScript**.
- Implemented **DOM manipulation** to allow users to view, filter and remove installed extensions.

Education

MSA university, Faculty of Engineering

2018-2023

Major: Computer System Engineering

Skills & abilities

- Frontend: React | JavaScript | Typescript | HTML | CSS | Bootstrap | Tailwind CSS
- Backend: Java | Node.js
- Web development: DOM manipulation | State Management | Responsive Design | Component – based development | RESTful API
- Version control and tools: Git | EmailJS | Vite | VScode | NPM
